Hello Chair Hunnicutt,

No I did not, nor have any information about it. You've asked me once not to use your home address for anything and I don't and haven't. The last time someone asked for your address I had it delivered to me at the office and forwarded it to you, and will do so unless you tell me otherwise.

Both Brigitte and Alise know not to provide your information but I'll ask them and let you know, as well as reiterate your request.

He may have got it online, it's public information though the assessors & recorders office.

Thank you,
Micah J. Fobbs

Hi Micah,
Did you give Derf Butler my home address? He had someone deliver a gift basket to my house on Sunday. I was not home, and the person put it through my gate.

I do not want anyone to know my street address, to come by when not requested by me, or to deliver anything to me. I do not solicit gifts, nor do I want them. I am a very private person, and I am not seeking to be recognized or lauded for my involvement with the CAC. What I do on the CAC for the City and the community allows me to help other people and allows me to do what God wants me to do.

There are strict conflict of interest protocol/laws in place for people who serve on City committees and commissions. I do not intend to be caught up in any chicanery by members of the community or by contractors by accepting gifts from City program coordinators. As you know, any and all gifts or meals paid for by other people have to be noted on the Form 700.

Since Derf is administering a City contract, and the CAC is aware of his involvement, I do not want him delivering gifts to my house, however well intentioned. If anyone asks you for my home address, please tell them that information is not available. They can always send anything to you on my behalf.

I have asked Executive Director Tiffany Bohee to assist me with this situation.

If you have any information for me about this incident, please call me. Thanks much.
